

ADVANCED TRAINING: FOR RESTORERS & CLEANING PROFESSIONALS

What have you done lately to improve your business?
Education is the key!
Knowledge is power

Don't say business is slow if you aren't doing anything to change it! Are you trained-up & ready now? Don't put it off any longer....

Advanced Structural Drying Course

Utilising the full capabilities of ITI's Training House, this 4 day course is designed for industry professionals. It presents the science of drying out a structure with interactive instruction & hands-on application. Using state-of-the-art drying equipment & project management software, training focuses on documenting the drying process in real-time. Trainees retain the documentation for future reference in the field
